

Beech Class

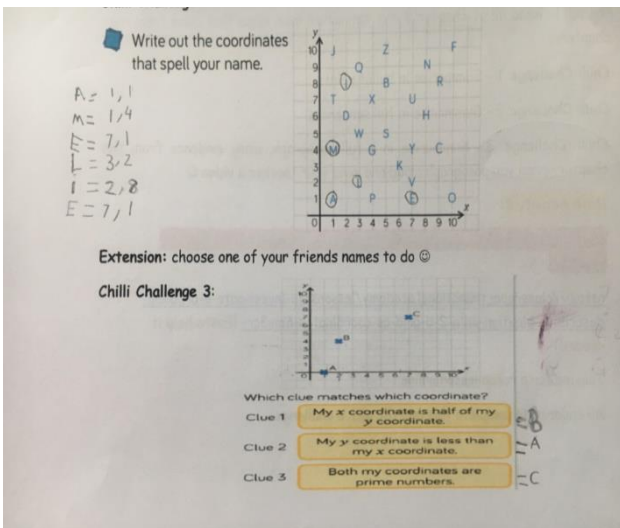

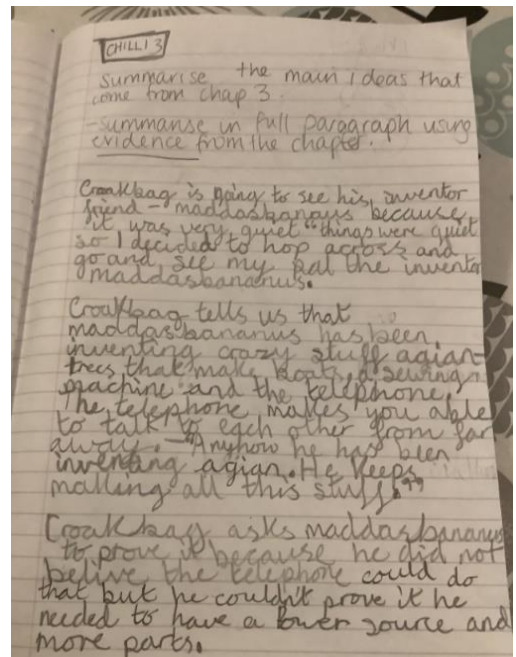

Science Experiment

As a group we looked at how water transports through a plant. This was done at home using celery and food colouring.

English

We are retrieving information from our class text, this work produced summaries the entire chapter 3 of Rampaging Romans.

Maths

Year 4 are looking at plotting co-ordinates on a grid. During this task the children have to find the letter of their name and spell it out using the co-ordinates on the grid.
